Accessibility, privacy, and humanized spaces

THE PERFECT COMBINATION FOR ACHIEVING UNIQUE PROJECTS

Guaranteeing functionality and efficiency for healthcare workers in spaces characterized by tension, stress, and limited space is a challenge. That’s why KLEIN offers multiple sliding glass and wood applications, to provide users with privacy and comfort, all while enhancing accessibility.

This catalog was created to show you, in terms of quality and reliability, the results of our systems in healthcare environments.

Choose KLEIN to make your designs reality.

Philosophy

Our R+D+i department is the center of our design and product creation process, thus safeguarding the brand’s extremely high standards. We conduct all of the design, 3D modeling, prototyping, and testing phases at our facilities in Barcelona, as well as the manufacturing of all of our products.

Our systems are only produced with European-origin aluminum. They surpass the EN1527 standard by being tested to more than 100,000 cycles, and come with a 5-year warranty. We are proud of our internationally renowned customers and providers, as well as the support we have received from the leading international certification organizations and design entities.

The excellence derived from the manufacturing of innovative systems meets TÜV quality standards.
Rosa María Vivar Foundation
HEALTHCARE CENTER FOR PEOPLE WITH ALZHEIMER'S

Goal: Be aware of users and transform the space into a home.

Architects: GCA Architects
Systems: SLID and LITE FOLD
“Our objective was to create a warm, welcoming, bright place in which patients could spend the day feeling like they were at home, instead of in a hospital.”

Maria Jesús Lerín, Director of the Center
AZA Clinic

**Goal:** Placing people at the center of the activity and using hands as the tool for change.

**Architects:** CARPE Studio and CRUX Arquitectos  
**Systems:** SLID
“Thanks to the 6 panels in cross position, the 50 m2 of the clinic become up to 6 rooms, as required.”

Alejandro Gª Pedrón, CEO of Crux Arquitectura
Barcelona Hospital Clínic

Goal: Guarantee functionality and efficiency for healthcare workers

Architects: PMMT Arquitectura
Systems: SLID
“The focus is on the patients, on creating a private, comforting environment for them, as well as an efficient, comfortable workspace for the entire healthcare team.”

Patricio Martínez, CEO of PMMT Arquitectura
**Goal:** Offer a functional, modern, and welcoming space for patients.

**Architects:** Mario Franco Denis

**Systems:** LIGNEA

"To achieve a calming environment, we decided to use a limited number of materials that would grant uniformity to the clinic, mainly opting for wood and glass."

Mario Franco Denis
